

flo™ 2000 SERIES

medication workstations

Connect with patients – and to patient information – in the same place, with Flo 2000 Series mobile medication workstations. Spend more time with patients. Deliver better care. Improve patient safety and data accuracy. From the pharmacy to the bedside and back again, the Flo 2400 and Flo 2700 set the standard in premium integration, options, and ease-of-use, offering the smartest combination of reliability, value, mobility and wireless capability.

Flo 2700 wireless mobile workstation

flo™ 2000 SERIES medication workstations

Increased patient loads, time constraints, regulations, patient safety and physically demanding job requirements. Healthcare practitioners face these challenges every day. But Flo Healthcare lightens the stress of these demands by delivering the best in fully integrated wireless mobile workstations. The Flo 2000 Series offers ease-of-use, a small footprint, and the ability to bring medication application and documentation to the point of care.

Just what clinicians want

Flo 2000 Series medication workstations provide clinicians with the tools they need to save time while providing improved patient care. The integrated, configurable workstations provide access to medication management systems and patient information to ensure the Five Rights of Medication Management – Right Patient; Right Drug; Right Dose; Right Route; Right Time – close the loop at the point of care, which eliminates errors.

Made with IT in mind

Flo 2000 Series medication workstations offer “straight from the box” readiness that requires no assembly, no configuration and no set-up. Just roll the workstation out of the box, charge the battery and put it to work. IT staff members can bank on Flo’s strong reliability, high level of technology integration, and reputation for dependable, complete service and support.

Transforms pharmacy workflow

Flo 2000 Series medication workstations provide a direct link between the pharmacy and clinician, helping minimize the opportunity for error while maximizing efficiency of the medication administration process. The innovative medication workstations are built with the patient care continuum in mind, providing the necessary tools to help increase efficiency, accurately monitor medication inventory, and improve patient safety.

Satisfies hospital administration

Flo 2000 Series medication workstations answer the hospital administrator’s daily concerns. Their small footprint and ergonomic design increase productivity and efficiency, enhance job satisfaction, and most importantly, improve patient safety and care. This, combined with Flo Healthcare’s 100 percent satisfaction guarantee, lets the hospital administrator sleep a little easier at night.

Flo 2400 wireless mobile workstation

Whether you're interested in a full-size workstation or a mini-medication cart, Flo Healthcare offers a variety of options for each, to best fit your needs.

Ergonomic design for easy use

- Fully adjustable, with retractable keyboards, height-adjustable base, mouse tray or extended work surface, and monitor tilt/rotate
- Designed to work the way nurses work, with configurable set-up that makes it easy to move, store and place items

Flexible for how you work

- Choice of standard accessories for supplies, narcotics and patient bins
- Expandable work surface
- Highly configurable modular storage system of drawers and bins
- Customizable locking options that increase safety

Integrated, appealing solution

- Fully assembled, integrated and tested before delivery, creating a truly 100 percent "out of the box" solution
- Fully integrated turnkey solutions that include mobile cart, hardware, display and wireless components, in multiple unit configurations
- Visually appealing, clean, high-quality design that allows all cables and wires to be hidden within the cart body

Reliable technology and security

- Standard high-quality components, such as computers and hardware from Dell, HP, IBM, Panasonic, Wyse, and more.
- Integrated use of bar code scanners for improved patient safety, integration with the Five Rights of Medication Management, and efficient inventory management
- Meets IEC requirements for medical electronics and uses UL-60601-01 certified power systems
- Wide range of longer-life battery options for increased run time and support of higher-powered devices

Committed to healthcare

Innovative partnerships with
Emerson and InterMetro

Strong industry expertise

Fully adjustable, with retractable keyboards.

Bar code scanners integrated for improved patient safety and inventory management.

Optional security features include a touchpad-operated security system that electronically controls access to drawers without keys.

medication workstations

Committed to service from the start

Backed by a 100 percent satisfaction guarantee, Flo Healthcare's customer service promise ensures top-notch support and assistance. From the initial product evaluation to implementation and beyond, Flo Healthcare provides access to technical professionals trained to work with both clinicians and IT staff to solve problems and reduce downtime.

Commitment to innovation

As a multi-product solution provider, Flo Healthcare provides hospitals a full line of wireless mobile workstations. Flo Healthcare's combination of healthcare expertise and innovative design has set the standard for wireless mobile workstations, making Flo Healthcare workstations the ones everyone wants to copy.

Flo 2700 wireless mobile workstation

flo™ 2000 Series General Technical Specifications

Base Cart

Typical Dimensions	19 3/4" W x 21 5/8" D up to 43" H x 22.7" W x 24.9" D
Construction	Polymer body and drawers with metal base
Work surface	Adjustable height range of 15 3/4" or static height at 43"
Casters	Four swivel: two locking, two non-locking
Storage	Highly configurable system of drawers and bins with customizable locking options. Optional external accessories.

On-board Computer

A number of thin client or PC options are available, including select models from Dell, HP, IBM, Panasonic, Wyse, and more.

Display

Diagonal size	17"/19"
Display type	LCD
Movement	Monitor tilts and rotates
Viewable size	17"/19"
Option	Touch screen available

Power Supply

Input voltage	110-240 VAC @ 5 amps
Output voltage	10.5-16 VDC
Battery options	Sealed lead acid (SLA) or Nickel metal hydride (NiMH)
Battery run time	Up to 15 hours*
Charging time, full charge	4-6 hours
Charging status indicator	LEDs with continuous readout
Power	Up to 780 Whr available

* Actual running time may vary depending on several factors such as technology configuration, battery age, usage pattern and power supply model/battery option. Run time is based on a system using 35 Watts.

Patent #6,493,220, #6,721,178, and 7,009,840

improving connections.
improving care.
