

DATACARD® IDCENTRE™ SILVER IDENTIFICATION SOFTWARE

IDCentre Silver edition software includes a user-friendly set of tools for card design, production or a combination of these capabilities.

Configure your ID program

The modular platform of Datacard® IDCentre™ Silver identification software lets you configure the ideal solution for your ID card program. Separate packages for card design and card production give you the choice to combine elements of these capabilities at a central location or manage them separately from different workstations. Either way, you control a powerful blend of components for creating ID cards, reports and production forms.

Flexible, modular platform

- Use Datacard® IDCentre™ Silver Production software to customize the look of your cards, reports and production forms. Options include shape drawing, transparent backgrounds and ghost images.
- Datacard® IDCentre™ Silver Designer software offers image capture, data access and retrieval, and production capabilities.
- IDCentre Silver software is compatible with Datacard® CP40™ Plus, CP60™ Plus and CP80™ Plus card printers, and Datacard® Capture Pointe™ Series software.
- The software supports smart cards with a proximity card plug-in.
